Safe harbor disclosure

Forward-looking statements
This presentation contains forward-looking statements regarding future events and our future results that are subject to the safe harbors created under the Securities Act of 1933 and the Securities Exchange Act of 1934. These statements are based on current expectations, estimates, forecasts and projections about the industries in which we operate and the beliefs and assumptions of our management. We use words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "goal," "intend," "may," "plan," "project," "seek," "should," "target," "will," "would," variations of such words and similar expressions to identify forward-looking statements. In addition, statements that refer to projections of earnings, revenue, costs or other financial items; anticipated growth and trends in our business or key markets; future economic conditions and performance; anticipated performance of products or services; anticipated satellite construction and launch activities; the performance and anticipated benefits of the ViaSat-2 and ViaSat-3 satellites; the expected capacity, service, coverage, service speeds and other features of the ViaSat-2 and ViaSat-3 satellites, and the timing, cost, economics and other benefits associated therewith; anticipated subscriber growth; plans, objectives and strategies for future operations; and other characterizations of future events or circumstances, are forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed in any forward-looking statements. Factors that could cause actual results to differ include: our ability to realize the anticipated benefits of the ViaSat-2 and ViaSat-3 satellites; unexpected expenses related to the satellite projects; our ability to successfully implement our business plan for our broadband satellite services on our anticipated timeline or at all; risks associated with the construction, launch and operation of our satellites, including the effect of any anomaly, operational failure or degradation in satellite performance; negative audits by the U.S. government; changes in the global business environment and economic conditions; delays in approving U.S. government budgets and cuts in government defense expenditures; our reliance on U.S. government contracts, and on a small number of contracts which account for a significant percentage of our revenues; our ability to successfully develop, introduce and sell new technologies, products and services; reduced demand for products and services as a result of continued constraints on capital spending by customers; changes in relationships with, or the financial condition of, key customers or suppliers; our reliance on a limited number of third parties to manufacture and supply our products; increased competition and other factors affecting the communications and defense industries generally; the effect of adverse regulatory changes on our ability to sell products and services; our level of indebtedness and ability to comply with applicable debt covenants; our involvement in litigation, including intellectual property claims and litigation to protect our proprietary technology; and our dependence on a limited number of key employees. In addition, please refer to the risk factors contained in our SEC filings available at www.sec.gov, including our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Readers are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date on which they are made. We undertake no obligation to revise or update any forward-looking statements for any reason.

GAAP reconciliation
This presentation includes non-GAAP financial measures to supplement Viasat’s consolidated financial statements presented on a GAAP basis. We believe these measures are appropriate to enhance an overall understanding of Viasat’s past financial performance and prospects for the future. However, the presentation of this additional information is not meant to be considered in isolation or as a substitute for measures of financial performance prepared in accordance with GAAP. A reconciliation between the non-GAAP financial information and the most comparable GAAP financial information is provided in our earnings release, which is available on the Investor Relations section of our website at www.viasat.com.
Highlights

**ViaSat-2 nearing service launch**

- Additional 92 aircraft under contract in Q3
- Installs underway with several new airlines
- New & retrofit
- New contract with United Airlines for 70+ aircraft

**IFC growth underway**

- 9% revenue growth YoY
- 20% adj EBITDA growth YoY validates previous R&D investments
- Record segment backlog of over $700m
- Sustained long term growth prospects
Financial results – Q3 FY18

Adj EBITDA impacted by higher ramping costs & SSL settlement completion

In-flight connectivity update

› Scaling terminal production for ramp with multiple airlines
› New aircraft and retrofit
› 589 aircraft in service; 912 additional aircraft under contract (end of Q3)
› New IFEC contract with United Airlines for 70+ aircraft (post Q3)
› 4 million PED sessions in Q3

Just enjoyed two days of productive travel on @AmericanAir and their new 737MAX - nice work on integration and the @ViasatInc service provided amazing WiFi streaming at 15mbs! #737MAX #timetofly

Wifi on the @Qantas flight from Perth To Brisbane... can keep up with what's happening at the MCG via @MRNCricket
Consumer broadband highlights

› Promising results from initial market test of new unlimited plans
› More attractive to consumers — higher speeds, more BW, greater demand
› Record-level ARPU of $68.23, up 8% YoY
› ‘Migrations in Place’ on VS-1
› National VS-2 launch planned this month (February)
VS-2 discussion

Business objectives

› Increase addressable U.S. market
  – Faster speeds
  – More bandwidth

› Expand into new geographic markets
  – Mexico, Central America, Caribbean, Northern South America, Trans-Atlantic

› Improve geographic fit of supply to demand
  – Slow & fast dynamic resource allocation

› Grow existing and develop new verticals
  – Mobility, enterprise, Wi-Fi
Residential service growth opportunity

VS-2 productivity gain allocation

**VS-2 unlimited plans**

- **BRONZE 12**
  - 12 Mbps Download Speed
  - Unlimited Data
  - Video Streaming: At Small Screen Quality Typically 360p
  - Included: Built-In Wi-Fi
    - Free Standard Install: 2yr Price Lock Guarantee
    - Monthly Lease: $10/mo
    - Lifetime Lease: $299.99

- **SILVER 25**
  - 25 Mbps Download Speed
  - Unlimited Data
  - Video Streaming: At DVD Quality Typically 480p
  - Included: Built-In Wi-Fi
    - Free Standard Install: 2yr Price Lock Guarantee
    - Monthly Lease: $11/mo
    - Lifetime Lease: $299.99

- **GOLD 30/50**
  - 30/50 Mbps Download Speed
  - Unlimited Data
  - Video Streaming: At HD Quality Typically 720p
  - Included: Built-In Wi-Fi
    - Free Standard Install: 2yr Price Lock Guarantee
    - Monthly Lease: $10/mo
    - Lifetime Lease: $299.99

- **PLATINUM 100**
  - 100 Mbps Download Speed
  - Unlimited Data
  - Video Streaming: At Full HD Quality Typically 1080p
  - Included: Built-In Wi-Fi
    - Free Standard Install: 2yr Price Lock Guarantee
    - Monthly Lease: $10/mo
    - Lifetime Lease: $299.99

---

**Economic growth strategy**

- More subs
  - Less BW
  - Lower ARPU

- Fewer subs
  - More BW
  - Higher ARPU

- Revenue
- Subs
- ARPU
Outlook and key drivers

**Government Systems**
- Strong execution
- Good growth opportunities
- Leverage unique capabilities
- Grow addressable market
  - Satellite products & services
  - Tactical data links
  - Cyber security

**Commercial Networks**
- Strong growth in IFC terminal sales
- Improving awards & backlog
- Growth opportunities
- Moderating VS-3 R&D expense
- Continued R&D investment in retro-fit and line-fit STCs

**Satellite Services**
- Conclusion of SS/L VS-1 payments
- Availability of VS-2 bandwidth
  - Residential, IFC
  - Gov’t mobility, new verticals
- Return to subscriber growth and associated variable expenses/SAC
- Begin to overcome fixed costs of VS-2 infrastructure
