This filing relates to the proposed merger involving Viasat, Inc., a Delaware corporation ("Viasat"), Royal Acquisition Sub, Inc., a Delaware corporation ("Acquisition Sub") and RigNet, Inc., a Delaware corporation ("RigNet"), pursuant to the terms of that certain Agreement and Plan of Merger, dated as of December 20, 2020, by and among Viasat, Acquisition Sub and RigNet.

The following letter was sent by Richard Baldridge, President and Chief Executive Officer of Viasat, to Viasat employees on December 21, 2020:

Dear fellow employees,

I’m pleased to share with you that today we announced we have entered into a definitive agreement to acquire RigNet, a leading provider of ultra-secure, intelligent networking solutions and specialized applications.

As you would expect, we didn’t enter into this agreement lightly. We chose RigNet because of its successful track record, global footprint, deep industry knowledge, strong relationships in the energy market, as well as its talented global team. Like Viasat, RigNet also has emerging technology expertise in areas like machine learning and artificial intelligence that will augment our capabilities in these critical areas.

Acquiring RigNet benefits us in many ways:

- **Enables globalization and complements our ViaSat-3 plans**
  Bringing RigNet into the fold helps accelerate our strategy to provide high-quality, ubiquitous, affordable broadband connectivity and communications to the hardest-to-reach locations around the globe. RigNet has a strong global support infrastructure and operations foundation with more than 350 talented employees overseas. Its international presence aligns with our expanding global operations, enabling us to find additional value and business complements for our ViaSat-3 globalization efforts.

- **Facilitates expansion into new vertical industries**
  RigNet provides global end-to-end, secure managed communications service and installation capabilities in adjacent industries, including: energy, mining, shipping, maritime and additional enterprises. By combining technology and service capabilities, we see opportunities to expand into these industries globally while capitalizing on the growing trends surrounding broadband connectivity, communications and digital transformation.

- **Access to RigNet’s customers, technology and services**
  Acquiring RigNet gives Viasat direct access to over 650 of its customers and core technology and services including RigNet’s digital transformation toolset, which includes its end-to-end managed communications.

- **Financial benefits**
  This transaction will be immediately accretive to cashflow and is expected to modestly improve our leverage position.

Our plan is to incorporate the RigNet global team, technology and core capabilities into our newly named Global Enterprise and Mobility business unit, led by President Jimmy Dodd. We anticipate the RigNet team will operate from its headquarters in Houston, with management expected to stay on to help with integration, provide ongoing leadership and in-depth industry knowledge, and customer relationship support. You can expect to hear about more details on integration as we get closer to closing the deal in mid-calendar year 2021.
While we still have diligence to complete, we are hopeful and look forward to welcoming RigNet to the Viasat team.
