

Viasat Signs UK Armed Forces Covenant Pledging Commitment to Military Community

Jul 28, 2022

Ministry of Defence makes award to Viasat under Defence Employer Recognition Scheme

CARLSBAD, Calif. and FARNBOROUGH, United Kingdom, July 28, 2022 /PRNewswire/ -- [Viasat UK Ltd.](#), a subsidiary of global communications company [Viasat Inc.](#) (NASDAQ: VSAT), today announced that it has affirmed its commitment to supporting UK military personnel, reservists, veterans and their families by signing the [UK Armed Forces Covenant](#). The Armed Forces Covenant is a commitment made by organisations of all types to provide support for members of the armed forces community through employment, education, financial assistance or access to critical services.

The commitment further deepens Viasat's longstanding relationship with the UK Ministry of Defence (MoD). In 2021, the Company opened a [new state-of-the-art facility](#) featuring a Network Operations Centre (NOC) and Cyber Security Operations Centre (CSOC) in Aldershot, Hampshire. The centres will support sovereign operations and capabilities for the UK government and MoD, as well as defend against increasingly sophisticated cyberattacks from a growing number of adversaries. The facility is part of a larger investment in the UK prosperity and sovereignty agenda, which includes a planned £300m investment to support the launch and operation of the ViaSat-3 global satellite constellation over Europe, Middle East and Africa.

The MoD also recognised Viasat with a Bronze Award under the Defence [Employer Recognition Scheme \(ERS\)](#). The Defence ERS encourages employers to pledge support for defence and inspire other organizations to do the same. It recognises organisations' commitments to the armed forces community and alignment of company values with the Armed Forces Covenant.

Viasat's Vice Chairman Rick Baldrige attended the in-person signing of the Covenant at the company's Aldershot offices.

"We are very proud to sign the Armed Forces Covenant which is in keeping with the core culture of our company," said Baldrige. "With hundreds of veterans and military family members working in our offices around the world, the armed forces community is an indispensable part of our workforce. We are looking forward to supporting UK service members and their families with new employment opportunities and other support programs."

Leo Docherty, Member of Parliament (MP) for Aldershot, joined in applauding Viasat's signing of the Covenant and broader commitments in the UK.

"I'm delighted that Viasat UK is showing its support for our service personnel by raising the flag and signing the Armed Forces Covenant. As someone with a military background, I am delighted to see Viasat UK extend its commitment to our Armed Forces, veterans and Reserves - and their families - right across the UK," said Mr. Docherty. "Offering meaningful employment options and support for those who are transitioning from the military to civilian life means their talents are maximised in their positive contribution to the business community."

Viasat has a long history of supporting military veterans. The Armed Forces Covenant and Bronze Award are further examples of this continued commitment to veterans and military families everywhere through employment opportunities, career development and transition workshops. Last year, the U.S. Department of Labor gave Viasat a [2021 HIRE Vets Medallion Award](#), which recognises investment in recruiting and retaining veterans, as well as offering veteran-specific skills development and leadership programs. Viasat was also named a top employer of veterans by *Military Times'* [2021 Best for Vets: Employers List](#).

Mr. Docherty continued, "The Armed Forces Covenant is a promise by the nation to ensure the fair treatment of those who are serving, as well as veterans and their families. I'm delighted to see even more organisations - including Viasat UK, headquartered in my constituency of Aldershot - sign up to this pledge."

The signing of the Armed Forces Covenant follows Viasat and Inmarsat's [recently announced agreement](#) with the UK Government's Department for Business, Energy and Industrial Strategy (BEIS) as part of the proposed combination of the two companies. This agreement includes binding commitments to expand numbers of highly-skilled jobs in key areas and research & development investment that will support the UK's National Space Strategy.

Forward-Looking Statement

This press release contains forward-looking statements that are subject to the safe harbors created under the Securities Act of 1933 and the Securities Exchange Act of 1934. Forward-looking statements include statements that refer to Viasat employment support and investment in UK military personnel, reservists, veterans and their families; Viasat's support for sovereign operations and capabilities for the UK government and MoD; the agreed upon package of legally-binding undertakings with the UK Government's Department for BEIS as part of the proposed combination of Viasat and Inmarsat; Viasat's plan to invest £300 million in the UK; and our ability to expand the numbers of highly-skilled jobs in key areas. Readers are cautioned that actual results could differ materially and adversely from those expressed in any forward-looking statements. Factors that could cause actual results to differ include: risks associated with the construction, launch and operation of the ViaSat-3 class satellites and Viasat's other satellites, including the effect of any anomaly, operational failure or degradation in satellite performance; the ability to realize the anticipated benefits of the ViaSat-3 satellite platforms; unexpected expenses or delays related to the satellite system; the ability to successfully implement Viasat's business plan for broadband satellite services on Viasat's anticipated timeline or at all, including with respect to the ViaSat-3 satellite platforms; contractual problems, product defects, manufacturing issues or delays; regulatory issues; technologies not being developed according to anticipated schedules, or that do not perform according to expectations; and increased competition and other factors affecting the connectivity sector, generally. In addition, please refer

to the risk factors contained in Viasat's SEC filings available at www.sec.gov, including Viasat's most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q. Readers are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date on which they are made. Viasat undertakes no obligation to update or revise any forward-looking statements for any reason.
