

## Viasat Announces Retirement of Vice Chairman Rick Baldrige

Jun 14, 2023

*Decision follows Viasat's acquisition of Inmarsat*

CARLSBAD, Calif., June 14, 2023 /PRNewswire/ -- [Viasat Inc.](#) (NASDAQ: VSAT), a global leader in satellite communications, announced today that Rick Baldrige will be retiring from his role as Vice Chairman, effective June 30, 2023, and will remain a member of the Board of Directors. The announcement comes following a successful close of Viasat's acquisition of Inmarsat, a deal Baldrige led for the last two years.

Baldrige joined Viasat in 1999, and has served in senior executive roles including Executive Vice President and Chief Operating Officer from 2002, and as President and Chief Operating Officer from 2003. He was appointed President and Chief Executive Officer in November 2020 and assumed the role of Vice Chairman in July 2022.

"In his more than 20-year career with Viasat, Rick has been integral to the evolution of the company - supporting our approximately 50x revenue growth from a subsystems technology manufacturer to a global industry leader in satellite communications services, systems solutions, and space and ground products," said Mark Dankberg, chairman and CEO, Viasat. "His leadership and personal involvement in the Link-16 divestiture and the Inmarsat acquisition were just the most recent examples of the many contributions he's made to our growth. All of us at Viasat are grateful for his dedication, insight and leadership, and we are very pleased that he will continue his service with the company as a member of our board of directors."

"I am so proud to have worked alongside the incredibly talented employees at Viasat for the last 24+ years," said Baldrige. "It has been my privilege to have worked with the three cofounders to further a culture of innovation and meritocracy. It is bitter-sweet as although we have grown a great company, the best is yet to come. I look forward, as a member of the board, to continuing to see the fruits of the combination of the ViaSat-3 constellation and the integration with Inmarsat come together to benefit our employees, customers across the globe and shareholders. Together we can make a huge difference in people's lives through education, healthcare, and local commerce."

### **About Viasat**

Viasat is a global communications company that believes everyone and everything in the world can be connected. With offices in 24 countries around the world, our mission shapes how consumers, businesses, governments and militaries around the world communicate and connect. Viasat is developing the ultimate global communications network to power high-quality, reliable, secure, affordable, fast connections to positively impact people's lives anywhere they are—on the ground, in the air or at sea, while building a sustainable future in space. On May 30, 2023, Viasat completed its acquisition of Inmarsat, combining the teams, technologies and resources of the two companies to create a new global communications partner.
