Business Update

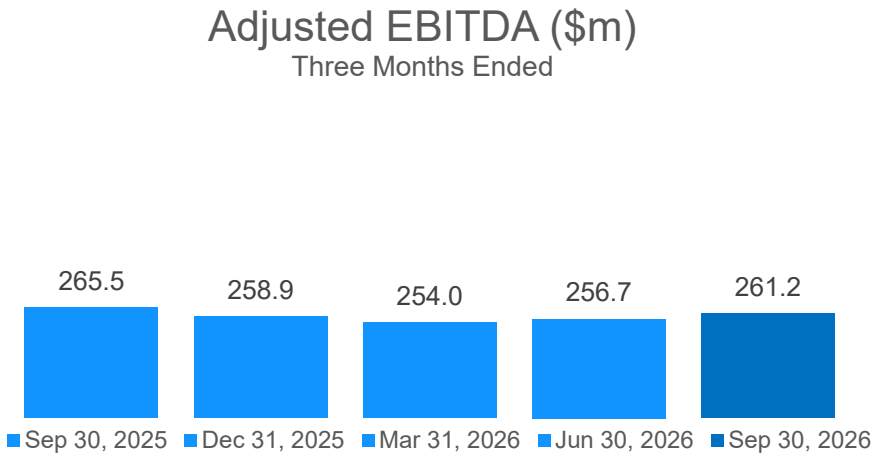

Business Developments

- In second quarter of fiscal 2027 we generated revenue of $457m and Adjusted EBITDA of $261m, with Adjusted EBITDA essentially flat with the prior year when adjusting for the sale of Navarino which generated $4m of Adjusted EBITDA in the prior year. Second quarter free cash flow was $137m, up $58m YoY.
- Government Satcom revenue grew 3% from increased GX and other services, especially with international customers. Government Satcom received awards and renewals worth over $120m during the quarter.
- Maritime revenue declined 8% versus the prior year period. Maritime ended the quarter with 1,990 NexusWave vessels in service and an outstanding orderbook of over 1,500.
- Aviation revenue grew 8% YoY in Q2 largely from increased aircraft in service and higher ARPA in Inflight Connectivity (IFC).
- Enterprise revenue decreased by 12% primarily on lower deliveries of satellite handsets.
- Ended the quarter with $2,097m Net Debt and a Net Leverage Ratio of 2.0x.

1. Relates to the sale of Navario, a previously held unconsolidated Affiliate.
2. Stock compensation expense related to stock related compensation agreements, where employees of the Group are granted awards in the form of equity securities of its ultimate parent company, Viasat. These amounts are reimbursed to the ultimate parent company.
3. Costs typically consist of transaction, integration, and disposition related costs
4. Beginning Jun 30, 2026, the Company excludes unrealized foreign currency from Adjusted EBITDA as this reflects non-cash period-end remeasurement of foreign currency-denominated monetary assets and liabilities and is not considered by management to be indicative of core operating performance. Prior-period amounts have not been revised because the effect was not material (three months ended Sep 30, 2025: $0.9m gain, six months ended Sep 30, 2025: $8.4m loss).
