Connect Bidco Limited Quarter Ended September 30, 2026 Results

All information herein is related to Connect Bidco Limited (Inmarsat or the Company, and together with its subsidiaries, the Group), which is an indirect subsidiary of Viasat, Inc. (Viasat). All references herein to "we," "us," "our," "Group" and "Company" refer to Inmarsat only and not to Viasat or any member of the wider Viasat group.

BASIS OF PREPARATION

The Management Discussion and Analysis is provided in accordance with the reporting requirements set out in our debt agreements. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The financial information has not been prepared in accordance with the requirements of Regulation S-X of the Securities Act of 1933, other requirements of the Securities and Exchange Commission (SEC), International Financial Reporting Standards (IFRS), or other generally accepted accounting principles.

The information presented herein and in the accompanying financial statements may vary from the results for Inmarsat presented by Viasat or included in the consolidated financial statements for Viasat because the accompanying financial statements and associated disclosures contained herein are prepared at the level of Inmarsat, whereas results for Inmarsat, presented by Viasat, are prepared at the Connect Topco Limited level. This Management Discussion and Analysis has been prepared solely to comply with the reporting requirements under our debt agreements, and the information set forth herein should not be considered to be a substitute for or supplement to Viasat's consolidated financial statements for the Viasat group prepared in accordance with GAAP or the disclosures set forth in Viasat's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q or other filings with the US SEC.

This Management Discussion and Analysis contains forward-looking statements regarding future events and our future results that are subject to the safe harbors created under the US Securities Act of 1933 and the US Securities Exchange Act of 1934. These statements are based on current expectations, estimates, forecasts and projections about the industries in which we and the wider Viasat group operate and the beliefs and assumptions of management. We use words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "goal," "intend," "may," "plan," "project," "seek," "should," "target," "will," "would," variations of such words and similar expressions to identify forward-looking statements. In addition, statements regarding our anticipated operations, financial position, liquidity, net leverage ratio, free cash flow, performance, prospects or growth and scale opportunities; projections of earnings, revenue, costs or other financial items; anticipated growth and trends in our business or key markets; future economic conditions and performance; the development, customer acceptance and anticipated performance of technologies, products or services; satellite construction and launch activities; completion of in-orbit placement and in-orbit testing and commencement of commercial service of our satellites; the performance and anticipated benefits of our satellites; the expected completion, capacity, coverage, service speeds and other features of our satellites, and the timing, cost, economics and other benefits associated therewith; plans, objectives and strategies for future operations; expected revenue from the Ligado settlement; and other characterizations of future events or circumstances, are forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Factors that could cause actual results to differ materially include the factors identified in Viasat's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Viasat's other filings with the SEC. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update any forward-looking statements for any reason.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

The following table presents income statement data for the periods indicated:

(In millions, unaudited)	Three Months Ended		Six Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Revenues	457.1	458.9	921.4	908.0
Operating expenses:				
Cost of revenues	234.0	248.9	470.4	495.9
Selling, general and administrative	87.3	79.8	180.6	173.4
Independent research and development	4.6	3.7	8.2	7.4
Amortization of acquired intangible assets	59.5	59.5	119.0	119.0
Income (loss) from operations	71.7	67.0	143.2	112.3
Interest income (expense), net	(53.7)	(66.7)	(107.1)	(137.6)
Income (loss) from operations before income taxes	18.0	0.3	36.1	(25.3)
(Provision for) benefit from income taxes	(31.3)	(2.4)	(51.3)	0.4
Equity in income (loss) of unconsolidated affiliate, net	0.3	4.3	0.6	8.0
Net income (loss) attributable to Connect Bidco Limited	$ (13.0)	$ 2.2	$ (14.6)	$ (16.9)

Three Months Ended September 30, 2026 Compared to Three Months Ended September 30, 2025

Revenues

(In millions, except percentages, unaudited)	Three Months Ended		Dollar Increase (Decrease)	Percentage Increase (Decrease)
	September 30, 2026	September 30, 2025		
Government	$ 168.0	$ 163.4	$ 4.6	3%
Maritime	111.5	121.2	(9.7)	(8)%
Aviation	131.1	121.0	10.1	8%
Enterprise	24.6	27.9	(3.3)	(12)%
Central services	21.9	25.4	(3.5)	(14)%
Total revenue	$ 457.1	$ 458.9	$ (1.8)	0%

Our total revenues for the three months ended September 30, 2026 decreased by $1.8 million compared to the prior year period, primarily as a result of the following:

- **Government** revenues increased compared to the prior year period, primarily due to higher Global Xpress (GX) services and project revenues outside of the U.S., partially offset by lower equipment sales.
- **Maritime** revenues declined compared to the prior year period, primarily due to a decrease in Fleet Xpress (FX) vessels and average revenue per unit (ARPU) and a decrease in FleetBroadband (FB) revenue following continued customer migration to Very Small Aperture Terminals (VSAT). The overall decline was partially offset by a legacy product price rise and NexusWave growth.
- **Aviation** revenues increased compared to the prior year period, driven primarily by higher usage of Aircraft Operations and Safety services (AOS) services, coupled with an increase in In-Flight Connectivity (IFC) services reflecting more active aircraft in service and higher average revenue per aircraft (ARPA). The increase was partially offset by a decrease in Business Aviation (BGA) revenues due to lower SwiftBroadband (SBB) usage and fewer Jet ConneX (JX) aircraft.
- **Enterprise** revenues decreased compared to the prior year period, reflecting lower handset sales, as well as a lower usage of legacy services, partially offset by increased service revenues.

Cost of revenues

(In millions, except percentages, unaudited)	Three Months Ended September 30, 2026	Three Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Total cost of revenue	$ 234.0	$ 248.9	$ (14.9)	(6)%

Our cost of revenues decreased by $14.9 million compared to the prior year period, primarily due to decreased cost of service revenues driven by a favorable sales mix and lower depreciation and amortization. The overall decline also reflected a decrease in cost of product revenues driven primarily by lower product sales.

Selling, general and administrative expenses (SG&A)

(In millions, except percentages, unaudited)	Three Months Ended September 30, 2026	Three Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Selling, general and administrative	$ 87.3	$ 79.8	$ 7.5	9%

The $7.5 million increase in SG&A expenses compared to the prior year period was primarily due to higher labor costs, partially offset by change in a provision estimate.

Independent research and development (IR&D)

(In millions, except percentages, unaudited)	Three Months Ended September 30, 2026	Three Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Independent research and development	$ 4.6	$ 3.7	$ 0.9	24%

The $0.9 million increase in IR&D expenses compared to the prior year period was primarily due to higher costs in support of revenue generating product development.

Amortization of acquired intangible assets

Amortization of acquired intangible assets for the three months ended September 30, 2026 remained flat compared to the prior year period.

Interest income (expense), net

The $13.0 million decrease in interest expense, net for the three months ended September 30, 2026 compared to the three months ended September 30, 2025 was primarily due to lower interest expense on the Group's senior secured term loan facility (the Term Loan Facility), lower non-cash interest expense (amortization of fair value adjustment made in purchase accounting) following the repayment of the Group's prior $300 million term loan facility (the Original Term Loan Facility) in November 2025 and higher capitalized interest. The overall decline in interest expense, net also reflected an increase in interest income in line with higher cash on hand balances.

Income taxes

The income tax provision for the three months ended September 30, 2026 primarily reflected the tax provision from our income before income taxes. The effective tax rate for the three months ended September 30, 2026 differed from the U.K. statutory rate primarily due to foreign tax audit adjustments.

The income tax provision for the three months ended September 30, 2025 primarily reflected the tax provision from our income before income taxes. The effective tax rate for the prior year period differed from the U.K. statutory rate primarily due to foreign tax rate differences and withholding taxes.

Six Months Ended September 30, 2026 Compared to Six Months Ended September 30, 2025

Revenues

(In millions, except percentages, unaudited)	Six Months Ended September 30, 2026	Six Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Government	$ 343.8	$ 325.1	$ 18.7	6%
Maritime	223.1	242.0	(18.9)	(8)%
Aviation	258.4	238.2	20.2	8%
Enterprise	50.8	54.1	(3.3)	(6)%
Central services	45.3	48.6	(3.3)	(7)%
Total revenues	$ 921.4	$ 908.0	$ 13.4	1%

Our total revenues for the six months ended September 30, 2026 increased by $13.4 million compared to the prior year period, primarily as a result of the following:

- **Government** revenues increased compared to the prior year period, primarily due to higher GX services and project revenues outside of the U.S., partially offset by lower equipment sales.
- **Maritime** revenues declined compared to the prior year period, primarily due to a decrease in FX vessels and ARPU and a decrease in FB revenue following continued customer migration to VSAT. The overall decline was partially offset by a legacy product price rise and NexusWave growth.
- **Aviation** revenues increased compared to the prior year period, driven primarily by higher usage of AOS services, coupled with an increase in IFC services reflecting rising passenger usage and higher ARPA as well as an increase in BGA revenues resulting from higher ARPA, following the cumulative impact from a change in accounting estimate. The increase was partially offset by lower terminal sales.
- **Enterprise** revenues decreased compared to the prior year period, reflecting lower handset sales, partially offset by increased service revenues.

Cost of revenues

(In millions, except percentages, unaudited)	Six Months Ended September 30, 2026	Six Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Total cost of revenues	$ 470.4	$ 495.9	$ (25.5)	(5)%

Our cost of revenues decreased by $25.5 million compared to the prior year period, primarily due to decreased cost of service revenues driven by a favorable sales mix and lower depreciation and amortization. The overall decline also reflected a decrease in cost of product revenues driven primarily by lower product sales.

Selling, general and administrative expenses

(In millions, except percentages, unaudited)	Six Months Ended September 30, 2026	Six Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Selling, general and administrative	$ 180.6	$ 173.4	$ 7.2	4%

The $7.2 million increase in SG&A expenses compared to the prior year period was primarily due to higher labor costs. This was partially offset by favorable foreign exchange, lower depreciation and amortization and a change in provision estimate.

Independent research and development

(In millions, except percentages, unaudited)	Six Months Ended September 30, 2026	Six Months Ended September 30, 2025	Dollar Increase (Decrease)	Percentage Increase (Decrease)
Independent research and development	$ 8.2	$ 7.4	$ 0.8	11%

The $0.8 million increase in IR&D expenses compared to the prior year period was primarily due to higher costs in support of revenue generating product development.

Amortization of acquired intangible assets

Amortization of acquired intangible assets for the six months ended September 30, 2026 remained flat compared to the prior year period.

Interest income (expense), net

The $30.5 million decrease in interest expense, net for the six months ended September 30, 2026 compared to the six months ended September 30, 2025 was primarily due to lower interest expense on the Term Loan Facility, lower non-cash interest expense (amortization of fair value adjustment made in purchase accounting) following the repayment of the Original Term Loan Facility in November 2025 and higher capitalized interest. The overall decline in interest expense, net also reflected an increase in interest income in line with higher cash on hand balances.

Income taxes

The income tax provision for the six months ended September 30, 2026 primarily reflected the tax provision from our income before income taxes. The effective tax rate for the six months ended September 30, 2026 differed from the U.K. statutory rate primarily due to foreign tax audit adjustments.

The income tax benefit for the six months ended September 30, 2025 primarily reflected the tax benefit from our loss before income taxes. The effective tax rate for the prior year period differed from the U.K. statutory rate primarily due to foreign tax rate differences, withholding taxes, and interest on underpaid taxes.

Liquidity and Capital Resources

Overview

We have financed our operations to date primarily with cash flows from operations, bank line of credit financing, debt financing, and equity financing. At September 30, 2026, we had $1.3 billion in cash and cash equivalents, $1.1 billion in working capital, and borrowing availability of $550.0 million under our $550.0 million revolving line of credit (the Revolving Credit Facility). At March 31, 2026, we had $1.1 billion in cash and cash equivalents, $1.0 billion in working capital, and borrowing availability of $550.0 million under the Revolving Credit Facility. We invest our cash in excess of current operating requirements in short-term, highly liquid bank money market funds.

The general cash needs of our business can vary significantly and our future capital requirements will depend upon many factors, including cash required for our satellite projects and any future broadband satellite projects we may engage in, expansion of our IR&D and marketing efforts, and the nature and timing of orders.

To further enhance our liquidity position or to finance the construction and launch of any future satellites, acquisitions, strategic partnering arrangements, joint ventures or other business investment initiatives, we may obtain additional financing, which could consist of debt or convertible debt financing from public and/or private credit and capital markets.

We may, from time to time, seek to retire, prepay or repurchase our outstanding debt, including through cash purchases and/or exchanges for equity or debt, in open-market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will be upon such terms and at such prices as we may determine, and will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

In June 2025, the Group agreed to a binding term sheet with Ligado Networks (Ligado) and AST & Science, LLC to settle the Group's opposition to Ligado’s planned restructuring. Under the conditions set forth in the term sheet, the Group had expected to receive an aggregate of $568 million from Ligado in fiscal year 2026, consisting of (i) a $420 million lump sum payment which was received in October 2025, (ii) a $100 million lump sum payment that was due in March 2026 but remains outstanding pending resolution of certain matters, and (iii) a resumption of quarterly payments of approximately $16 million, which started on September 30, 2025, with an annual escalator of 3% for the life of the contract (through 2107).

Cash flows

	Three Months Ended		Six Months Ended	
(In millions)	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
Net cash provided by (used in) operating activities	$ 208.2	$ 143.3	$ 411.0	$ 339.0
Net cash provided by (used in) investing activities	(71.1)	(63.9)	(108.9)	(110.3)
Net cash provided by (used in) financing activities	(4.4)	(179.3)	(114.2)	(183.6)
Net increase (decrease) in cash and cash equivalents	$ 132.7	$ (99.9)	$ 187.9	$ 45.1
Supplemental information:				
Cash paid for interest (net of amounts capitalized)	$ 93.1	$ 105.8	$ 113.5	$ 139.5
Cash paid for income taxes, net	$ 3.7	$ 33.5	$ 31.9	$ 54.0

Cash provided by operating activities for the three months ended September 30, 2026 was $208.2 million compared to $143.3 million for the prior year period. This $64.9 million increase was primarily driven by a $134.6 million year-over-year increase in cash provided by net operating assets, offset by our operating results (net income (loss) adjusted for depreciation, amortization and other non-cash charges) which resulted in a $69.7 million decrease in cash provided by operating activities year-over-year. The increase in cash provided by net operating assets year-over-year was primarily due to timing of payments related to accrued and other liabilities. Cash paid for income taxes, net, decreased by $29.8 million year-over-year. Cash paid for interest (net of amounts capitalized) decreased $12.7 million year-over-year.

Cash provided by operating activities for the six months ended September 30, 2026 was $411.0 million compared to $339.0 million for the prior year period. This $72.0 million increase was primarily driven by a $145.6 million year-over-year increase in cash provided by net operating assets, offset by our operating results (net income (loss) adjusted for depreciation, amortization and other non-cash charges) which resulted in $73.6 million decrease in cash provided by

operating activities year-over-year. The increase in cash provided by net operating assets year-over-year was primarily due to timing of payments related to accrued and other liabilities. Cash paid for income taxes, net, decreased by $22.1 million year-over-year. Cash paid for interest (net of amounts capitalized) decreased $26.0 million year-over-year.

Cash used in investing activities for the three months ended September 30, 2026 was $71.1 million compared to $63.9 million for the prior year period. This $7.2 million increase was primarily driven by higher cash used for capital expenditures.

Cash used in investing activities for the six months ended September 30, 2026 was $108.9 million compared to $110.3 million for the prior year period. This $1.4 million decrease was primarily driven by lower cash used for capital expenditures.

Cash used in financing activities for the three months ended September 30, 2026 was $4.4 million compared to $179.3 million for the prior year period. This $174.9 million decrease in cash used in financing activities was primarily driven by a dividend of $175.0 million paid during the prior year period. The dividend was paid to the Company's immediate parent company, Connect Midco Limited, and ultimately paid up to Viasat, the Company's ultimate parent company.

Cash used in financing activities for the six months ended September 30, 2026 was $114.2 million compared to $183.6 million for the prior year period. This $69.4 million decrease in cash used in financing activities was primarily driven by a $75.0 million lower dividend payment in the current period compared to the prior period. A dividend of $175.0 million was paid in the prior year period compared to a $100.0 million dividend paid in the current year period.

Capital Expenditures

Capital expenditures during the three months ended September 30, 2026 of $71.1 million were 11% higher compared to the three months ended September 30, 2025. The increase in capital expenditures was primarily driven by higher spend on success-based capex and the timing of milestone payments.

Capital expenditures during the six months ended September 30, 2026 of $108.9 million were 1% lower compared to the six months ended September 30, 2025. The decrease in capital expenditures was primarily driven by lower spend from the completion of existing projects and the timing of milestone payments.

Long-Term Debt

As of September 30, 2026, the aggregate principal amount of our total outstanding indebtedness was $3.4 billion, which was comprised of $1.975 billion in aggregate principal amount of the 9.000% Senior Secured Notes due 2029, $1.3 billion in principal amount of outstanding borrowings under our Term Loan Facility, no outstanding borrowings under our Revolving Credit Facility, and $138.4 million of finance lease obligations.

For information regarding our outstanding indebtedness, refer to Note 5 — Senior Notes and Other Long-Term Debt to our condensed consolidated financial statements.

See accompanying notes to the condensed consolidated financial statements.

CONNECT BIDCO LIMITED
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Note 1 — Basis of Presentation

Connect Bidco Limited (also referred to hereafter as the Company or, together with its subsidiaries, the Group) is a private company limited by shares incorporated in Guernsey. The address of its registered office is Redwood House, St Julian's Avenue, St Peter Port, GY1 1WA, Guernsey.

The ultimate controlling party of the Company is Viasat, Inc. (Viasat), which is an entity based in the United States. The address of Viasat's registered office is 6155 El Camino Real, Carlsbad, California 92009. The Company's direct parent is Connect Midco Limited, which is an entity based in Guernsey. The address of its registered office is Redwood House, St Julian's Avenue, St Peter Port, GY1 1WA, Guernsey.

The accompanying unaudited condensed consolidated balance sheet at September 30, 2026, the condensed consolidated statements of operations and comprehensive income (loss) for the three and six months ended September 30, 2026 and 2025, the condensed consolidated statements of cash flows for the six months ended September 30, 2026 and 2025 and the condensed consolidated statements of equity for the three and six months ended September 30, 2026 and 2025 have been prepared by the management of the Company, and have not been audited. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP).

Principles of consolidation

The Company's consolidated financial statements include the assets, liabilities and results of operations of Connect Bidco Limited and its wholly owned subsidiaries.

All significant intercompany amounts have been eliminated. Investments in entities in which the Company can exercise significant influence, but does not own a majority equity interest or otherwise control, are accounted for using the equity method and are included as investment in unconsolidated affiliates in other assets (long-term) on the consolidated balance sheets.

The functional and reporting currency of the Company and most of the Group's subsidiaries is the U.S. dollar, as the majority of receipts from operational transactions and borrowings are denominated in U.S. dollars.

The financial information set forth below uses the same accounting policies and methods of computation as are followed in the Company's audited consolidated financial statements for the twelve months ended March 31, 2026.

Management estimates and assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates have been prepared on the basis of the most current and best available information and actual results could differ from those estimates. Significant estimates made by management include revenue recognition, stock-based compensation, allowance for doubtful accounts, valuation of goodwill and other intangible assets, patents, orbital slots and other licenses, software development, property, equipment and satellites, long-lived assets, derivatives and income taxes including the valuation allowance on deferred tax assets.

	$ 2,283,923	$ 2,278,476

Note 3 — Segment Information

The Group reports its results in one segment - communications services, and reports under Viasat, within the same segment. The Group operates in one segment consistent with the way management currently organizes and evaluates financial information internally for making operating decisions and assessing performance.

The Group determined that consolidated operating profits (losses) before amortization of acquired intangible assets is the Group's measure of segment profit or loss.

The Group's revenues are categorized by four business lines (consisting of government, maritime, aviation, and enterprise) and supported by 'central services'. The Group's business lines are determined consistent with the way management currently organizes and evaluates financial information internally for making operating decisions and assessing performance:

- Government: focusing on military and other government services to the U.S. and other international governments;
- Maritime: focusing on worldwide commercial maritime services including safety services;
- Aviation: focusing on both commercial aviation, and business and general aviation; and providing operational and safety services for aviation; and
- Enterprise: focusing on worldwide land-based Internet of Things, lease, broadband, and voice services.
- Central services: include satellite operations and backbone infrastructure, corporate administrative costs, and any income that is not directly attributable to a business line (such as Ligado).

Business line revenues for the three and six months ended September 30, 2026 and 2025 were as follows:

	Three Months Ended		Six Months Ended	
	September 30, 2026	September 30, 2025	September 30, 2026	September 30, 2025
	(In thousands)			
Revenues:				
Government	$ 167,994	$ 163,356	$ 343,800	$ 325,027
Maritime	111,540	121,217	223,170	242,060
Aviation	131,062	120,990	258,320	238,174
Enterprise	24,624	27,910	50,810	54,083
Central services	21,877	25,403	45,328	48,628
Total	$ 457,097	$ 458,876	$ 921,428	$ 907,972

Note 4 — Income Taxes

The income tax provision for the three months ended September 30, 2026 primarily reflected the tax provision from the Group's income before income taxes, and the effective tax rate for the period differed from the U.K. statutory rate primarily due to foreign tax audit adjustments (totaling approximately $29.0 million). The income tax provision for the three months ended September 30, 2025 primarily reflected the tax provision from the Group's income before income taxes, and the effective tax rate for the period differed from the U.K. statutory rate primarily due to foreign tax rate differences and withholding taxes.

The income tax provision for the six months ended September 30, 2026 primarily reflected the tax provision from the Group's income before income taxes, and the effective tax rate for the period differed from the U.K. statutory rate primarily due to foreign tax audit adjustments (totaling approximately $44.1 million). The income tax benefit for the six months ended September 30, 2025 primarily reflected the tax benefit from the Group's loss before income taxes, and the effective tax rate for the period differed from the U.K. statutory rate primarily due to foreign tax rate differences, withholding taxes, and interest on underpaid taxes.

A valuation allowance of $69.9 million at September 30, 2026 has been established relating to local and foreign net operating loss carryforwards that, based on management’s estimate of future taxable income attributable to such jurisdictions, are considered more likely than not to remain unused. During the six-month period ended September 30, 2026, the valuation allowance was increased by an insignificant amount.

For the three and six months ended September 30, 2026, the Group's gross unrecognized tax benefits increased by $19.0 million and $20.2 million, respectively, and interest and penalties increased by $20.8 million and $32.6 million, respectively. Of the total unrecognized tax benefits at September 30, 2026, $14.7 million would reduce the Group's annual effective tax rate if recognized.

Note 5 — Senior Notes and Other Long-Term Debt

Total long-term debt consisted of the following as of September 30, 2026 and March 31, 2026:

	As of September 30, 2026	As of March 31, 2026
	(In thousands)	
2029 Notes	$ 1,975,000	$ 1,975,000
Term Loan Facility	1,267,500	1,274,000
Revolving Credit Facility	—	—
Finance lease obligations	138,442	135,982
Total debt	3,380,942	3,384,982
Unamortized discount, debt issuance costs and fair value adjustments made in purchase accounting	(61,408)	(70,730)
Less: current portion of long-term debt	23,200	18,026
Total long-term debt	$ 3,296,334	$ 3,296,226

Secured Credit Facilities

In March 2024, the Group amended its senior secured credit facilities (the Secured Credit Facilities) to (among other matters): (1) establish the $1.3 billion Term Loan Facility, the proceeds of which, together with cash on hand, were used to repay approximately $1.38 billion of the outstanding borrowings under the Group's prior senior secured term loan facility (the Original Term Loan Facility), resulting in $300.0 million in principal amount of borrowings remaining outstanding under the Original Term Loan Facility at the closing of the amendment, and (2) replace the prior $700.0 million revolving credit facility with the $550.0 million Revolving Credit Facility (including up to $100.0 million of letters of credit).

In November 2025, the Group repaid early all of the $300.0 million in principal amount of outstanding borrowings under the Original Term Loan Facility plus accrued and unpaid interest thereon.

The maturity date for the Term Loan Facility is September 28, 2029 and for the Revolving Credit Facility is March 28, 2027. As of September 30, 2026, the Group had $1.3 billion in principal amount of outstanding borrowings under the Term Loan Facility. As of September 30, 2026, the Revolving Credit Facility was undrawn and there were no amounts outstanding under standby letters of credit, leaving borrowing availability under the Revolving Credit Facility of $550.0 million.

Borrowings under the Term Loan Facility are required to be repaid in quarterly installments of $3.25 million each, which commenced in June 2024, followed by a final installment of $1.23 billion at maturity.

Borrowings under the Secured Credit Facilities: (1) in the case of borrowings denominated in U.S. Dollars, bear interest, at the Group's option, at either (i) the highest of (x) the federal funds rate plus 0.50%, (y) the forward-looking one-month term SOFR rate plus 1.00% or (z) the administrative agent's prime rate as announced from time to time, or (ii) the forward-looking term SOFR rate for the applicable interest period (subject to, in the case of the Term Loan Facility, a floor of 0.50% per annum and, in the case of the Revolving Credit Facility, a floor of 0.00% per annum), and (2) in the case of borrowings denominated in available currencies other than U.S. Dollars, bear interest based upon the applicable benchmark for such currencies (as described in the Secured Credit Facilities) plus, in all cases, an applicable margin. The applicable margin for the Term Loan Facility is 3.50% per annum for base rate loans and 4.50% per annum for SOFR loans. The applicable margin for borrowings under the Revolving Credit Facility is based on the Group's total net leverage ratio and ranges between 1.50% and 2.25% per annum for base rate loans and 2.50% and 3.25% per annum for SOFR loans. As of September 30, 2026, the effective interest rate on the Group's outstanding borrowings under the Term Loan Facility was approximately 9.40%. The Secured Credit Facilities are required to be guaranteed by certain material subsidiaries and secured by substantially all of the assets of the borrowers and subsidiary guarantors.

The Secured Credit Facilities contain covenants that restrict, among other things, the Group's ability to incur additional debt, grant liens, sell assets, make investments and acquisitions, pay dividends and make certain other restricted payments. In addition, covenants regarding the Group's total net leverage ratio and interest coverage ratio apply to the Revolving Credit Facility. The borrowers under the Secured Credit Facilities were in compliance with the covenants under the Secured Credit Facilities as of September 30, 2026.

Borrowings under the Term Loan Facility are recorded as current portion of long-term debt and as other long-term debt, net of unamortized discount, unamortized fair value adjustment made in purchase accounting and debt issuance costs, in the Group’s condensed consolidated financial statements. The Term Loan Facility was issued with an original issue discount of 2.00%.

Senior Notes

Senior Secured Notes due 2029

In September 2024, certain subsidiaries of the Group issued $1.975 billion in principal amount of 9.000% Senior Secured Notes due 2029 (the 2029 Notes) in a private placement to institutional buyers. The 2029 Notes were issued at face value and are recorded as long-term debt, net of debt issuance costs, in the Group's condensed consolidated financial statements. The 2029 Notes bear interest at the rate of 9.000% per year, payable semi-annually in cash in arrears, which interest payments commenced in March 2025. Debt issuance costs associated with the issuance of the 2029 Notes are amortized to interest expense on a straight-line basis over the term of the 2029 Notes, the results of which are not materially different from the effective interest rate basis.

The 2029 Notes are secured by pari passu first priority liens on the collateral securing the Secured Credit Facilities, and are required to be guaranteed on a senior secured basis by the subsidiaries of the Group guaranteeing the Secured Credit Facilities.

The indenture governing the 2029 Notes limits, among other things, the ability of the issuers and their restricted subsidiaries to: incur, assume or guarantee additional debt; issue redeemable stock and preferred stock; pay dividends, make distributions or redeem or repurchase capital stock; prepay, redeem or repurchase subordinated debt; make loans and investments; grant or incur liens; restrict dividends, loans or asset transfers from restricted subsidiaries; sell or otherwise dispose of assets; enter into transactions with affiliates; and consolidate or merge with, or sell substantially all of their assets to, another person.

The 2029 Notes may be redeemed, in whole or in part, at any time during the 12 months beginning on September 15, 2026 at a redemption price of 104.500%, at any time during the 12 months beginning on September 15, 2027 at a redemption price of 102.250%, and at any time on or after September 15, 2028 at a redemption price of 100%, in each case plus accrued and unpaid interest, if any, thereon to the redemption date.

In the event a change of control occurs (as defined in the indenture governing the 2029 Notes), each holder will have the right to require the issuers to repurchase all or a portion of such holder’s 2029 Notes at a purchase price in cash equal to 101% of the aggregate principal amount of the 2029 Notes repurchased, plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Note 6 — Fair Value Measurements

In accordance with the authoritative guidance for financial assets and liabilities measured at fair value on a recurring basis (ASC 820), the Group determines fair value based on the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants, and prioritizes the inputs used to measure fair value from market-based assumptions to entity specific assumptions:

- Level 1 — Inputs based on quoted market prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Inputs which reflect management’s best estimate of what market participants would use in pricing the asset or liability at the measurement date. The inputs are unobservable in the market and significant to the instrument’s valuation.

The following tables present the Group's hierarchy for its assets measured at fair value on a recurring basis as of September 30, 2026 and March 31, 2026. The Group had no liabilities measured at fair value on a recurring basis as of September 30, 2026 and March 31, 2026.

	Fair Value as of September 30, 2026	Level 1	Level 2	Level 3
		(In thousands)		
Assets:				
Cash equivalents	$ 869,229	$ 869,229	$ —	$ —
Total assets measured at fair value on a recurring basis	$ 869,229	$ 869,229	$ —	$ —

	Fair Value as of March 31, 2026	Level 1	Level 2	Level 3
		(In thousands)		
Assets:				
Cash equivalents	$ 550,251	$ 550,251	$ —	$ —
Total assets measured at fair value on a recurring basis	$ 550,251	$ 550,251	$ —	$ —

The following section describes the valuation methodologies the Group uses to measure financial instruments at fair value:

Cash equivalents — The Group’s cash equivalents consist of money market funds.

Long-term debt — As of September 30, 2026, the Group’s long-term debt (including current portion) was comprised of (1) $1.975 billion in aggregate principal amount of the 2029 Notes, (2) borrowings under the Term Loan Facility, and (3) finance lease obligations reported at the present value of future minimum lease payments with current accrued interest. Long-term debt related to the Revolving Credit Facility is reported at the outstanding principal amount of borrowings, while long-term debt related to the Group's Term Loan Facility and the 2029 Notes is reported at amortized cost. However, for disclosure purposes, the Group is required to measure the fair value of outstanding debt on a recurring basis. The fair value of the Group’s long-term debt related to the Group's variable rate Secured Credit Facilities approximates its carrying amount due to its variable interest rate, which approximates a market interest rate. As of September 30, 2026, the estimated fair value of the 2029 Notes was Level 2 and was $2.1 billion. As of March 31, 2026, the estimated fair value of the 2029 Notes was Level 2 and was $2.1 billion.

Note 7 — Contingencies

In the ordinary course of business, the Group is subject to contingencies pursuant to requirements that it complies with relevant laws, regulations and standards. Failure to comply could result in restrictions in operations, damages, fines, increased tax, increased cost of compliance, interest charges, reputational damage and other sanctions. These matters are inherently difficult to quantify.

In cases where the Group has an obligation as a result of a past event existing at the balance sheet date, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated, a provision will be recognized based on best estimates and management judgement.

A contingent liability is disclosed where the existence of the obligation will only be confirmed by future events, or where the amount of the obligation cannot be measured with reasonable reliability. At September 30, 2026, the Group had no material contingent liabilities.

In June 2025, the Group agreed to a binding term sheet with Ligado Networks (Ligado) and AST & Science, LLC to settle the Group's opposition to Ligado’s planned restructuring. Under the conditions set forth in the term sheet, the Group expected to receive an aggregate of $568 million from Ligado in fiscal year 2026, consisting of (i) a $420 million lump sum payment which was received in October 2025, (ii) a $100 million lump sum payment that was due in March 2026, but remains outstanding pending resolution of certain matters, and (iii) a resumption of quarterly payments of approximately $16 million, which started on September 30, 2025, with an annual escalator of 3% for the life of the contract (through 2107).

Note 8 — Related-Party Transactions

There have been no material changes in the related party transactions nor principal risks and uncertainties from what has been described in the Connect Bidco Limited financial statements for the year ended March 31, 2026.
